

Platform Content Report

Side-by-side comparison of legacy Firebase app data vs new PostgreSQL platform data.

1. Exams Overview

Content distribution across all exams in PostgreSQL

Exam	Specialties	Topics	Questions	Flashcards	Courses	Video Modules	Video Lessons
ENARM	10	12	22	0	0	0	0
ENURM	10	10	545	0	0	0	0
MIR	26	34	472	4,668	0	0	0
USMLE Step 1	6	10	62	0	0	0	0
USMLE Step 2 CK	6	0	0	0	0	0	0
Total	58	66	1,183	4,678	5	36	47

2. Questions

2.1 Total Questions

Firestore (Legacy)	PostgreSQL (New)
1,109	1,183

2.2 Questions per Category (Firestore) vs Questions per Exam (PostgreSQL)

Firestore — Questions per Category		PostgreSQL — Questions per Exam	
Category	Count	Exam	Count
ENURM - Ciencias Básicas	124	ENURM	545
ENURM - Pediatría	116	MIR	472
ENURM - Cirugía	108	USMLE Step 1	62
ENURM - Medicina Interna	106	ENARM	22

ENURM - Ginecología y Obstetricia	100	USMLE Step 2 CK	0
Cardiología	72		
Ginecología y Obstetricia	64		
Pediatría	59		
Infectología	57		
Gastroenterología	55		
Neumología	53		
Cirugía	43		
Maxilofacial	30		
Neurología	28		
Farmacología	25		
Nefro-Urología	22		
ENARM - Medicina Interna	19		
Anatomía	13		
Medicina Interna	12		
ENARM - Cirugía	1		
ENARM - Pediatría	1		
Medicina Interna - ENARM	1		
Total	1,109	Total	1,183

3. Flashcards

3.1 Total Flashcards

Firestore (Legacy)	PostgreSQL (New)
4,699	4,678

3.2 Flashcards per Category (Firestore) vs Flashcards per Exam (PostgreSQL)

Firestore — Flashcards per Category	PostgreSQL — Flashcards per Exam
-------------------------------------	----------------------------------

Category	Count	Exam	Count
Ginecología y obstetricia	513	MIR	4,668
Anatomía	480	ENARM	0
Cirugía general	473	ENURM	0
Pediatría	440	USMLE Step 1	0
Cardiología	405	USMLE Step 2 CK	0
Infectología	392		
Gastroenterología	362		
Neumología	222		
Hemato - Oncología	219		
Endocrinología	203		
Neurología	198		
Otorrinolaringología	131		
Embriología	124		
Genética	105		
Farmacología	100		
Dermatología	98		
Salud Pública	73		
Fisiología	70		
Anatomía patológica	45		
Oftalmología	37		
Nefro - Urología	9		
Total	4,699	Total	4,678

4. Videos

Firestore (Legacy)	PostgreSQL (New)
Video categories: 8	Video modules: 36

Videos: 23	Video lessons: 47
-------------------	--------------------------

Video Categories (Firebase)

Category
Pediatría
Nefrología
Cirugía
Gastroenterología
Infectología
Ginecología y Obstetricia
Cardiología
Neumología

5. Courses

Firebase (Legacy)	PostgreSQL (New)
Courses: 1	Courses: 5
Enrollments: 2	Enrollments: (not yet migrated)

6. Users

Metric	Firebase	PostgreSQL
Total users	952	960
Admins	8	12
Students / Customers	944	948

7. Subscriptions & Payments

Metric	Firebase	PostgreSQL
--------	----------	------------

Membership plans (catalog)	5	5
Membership purchases (total)	1,285	1,283
Active subscriptions	1,010	1,024
Expired / completed	259	259
Unknown status	16	—

Firebase uses "Pending" status for active subscriptions. PostgreSQL uses "active" status. The numbers align closely (1,010 vs 1,024).

Membership Plans (Firebase)

Plan	Price	Max Uses (Exams)	Max Uses (Flashcards)
FREE ACCESS	\$0	2	2
Plan de 1 mes	\$1	10,000	50,000
Plan ENURM 27	\$40.65	100,000	100,000
Plan ENURM 27 3 cuotas	\$1	10,000	50,000
Plan PREMIUM ENURM	\$65	10,000	50,000

8. User Activity

Metric	Firebase	PostgreSQL
Question exam attempts	5,095	5,081
Flashcard exam attempts	1,132	1,132
Flashcard reviews (SM-2)	65	88

9. Key Observations

- MIR has the most content** — 4,668 flashcards and 472 questions. ENARM and ENURM have questions but no flashcards yet.
- Flashcards are only linked to MIR** in PostgreSQL. The 4,699 Firebase flashcards were migrated but assigned to MIR. ENARM, ENURM, and USMLE have 0 flashcards.
- ENARM has very limited content** — only 22 questions across 10 specialties, no flashcards, no videos, no courses.
- Video content exists in the database** (36 modules, 47 lessons) but is not yet linked to any specific exam.

5. **User base is healthy** — 960 registered users with 1,024 active subscriptions and over 5,000 completed exam attempts.
6. **The legacy Firebase app** has 1,109 questions and 4,699 flashcards that have been successfully migrated to the new PostgreSQL platform.
7. **Data consistency is high** — question exam attempts (5,095 vs 5,081), flashcard exam attempts (1,132 vs 1,132), and active subscriptions (1,010 vs 1,024) all match closely between Firebase and PostgreSQL.
